

Passionate about Social Media.

**We have been around since
1996 - designing top websites
and social media pages.**

Growing your business means growing your revenue.

But growing your revenue means convincing more customers to put their money in your pocket, and that is not easy. It takes savvy digital marketing that consistently puts your business in front of potential customers. Such digital marketing is impossible to create on your own when you are busy running a successful small business.

You need a partner willing to do whatever it takes to help you achieve your goals.

Whether you are an attorney, a plumber, a franchisee, a healthcare marketer, a small business owner, or some other kind of professional, one thing is certain: **You care about what you do. You care about delivering the best service, the best results, and the best experience imaginable to the people you serve.**

Infogold Design

Is a national web design company and internet marketing company. We have been around since 1996 - designing top websites and social media pages. We specialise in Web Design and Social Media Marketing with special emphasis on Facebook, Instagram and Twitter.

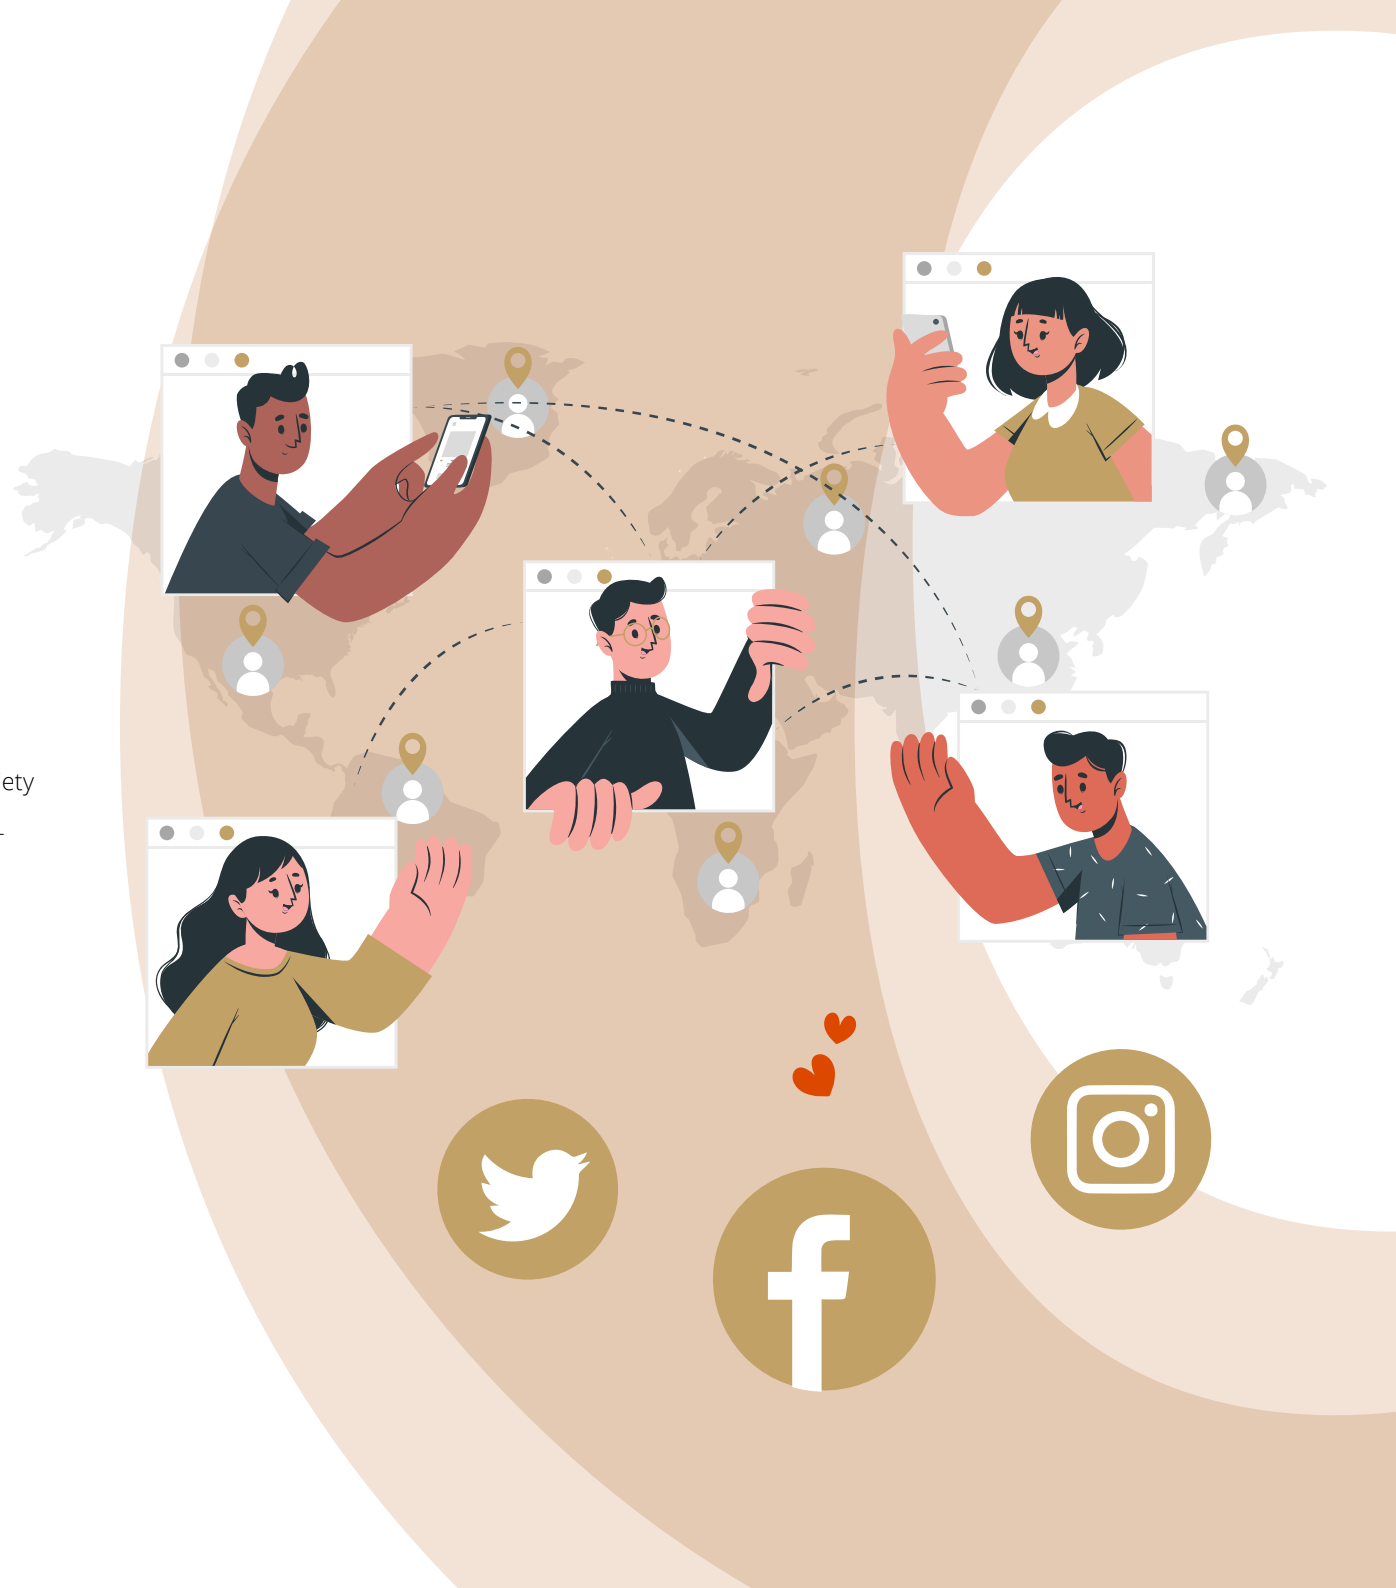

We get traffic to your page and through your door.

We specialise in Web Design and Social Media Marketing with special emphasis on Facebook, Instagram and Twitter.

We:

- ♥ Understand the importance of the internet in today's busy society
 - where information must be delivered quickly and seamlessly -
 - and how to deliver that information to the end user.
- ♥ learned our trade in the early days of the internet and,
- ♥ have kept up with the latest trends and developments in web design, search engines and social media marketing strategies.

We have specialised web, graphic and database designers as well as videographers, copywriters and ad specialists that assist us in all your online marketing efforts.
